FACIAL TREATMENTS

All facial treatments will begin with an in depth consultation to suit individual needs. Our treatments are designed to ensure that optimum results can be achieved; this may consist of combining different facials to improve the appearance of the skin. All clients will be given information to support a manageable skin care system, both at home and at our clinic. Our facials are suitable for men and women of all ages.

Enzyme facial

This treatment improves the skins clarity and condition by using fruit enzymes which will leave the skin looking bright, clean and smooth. Is suitable for all skin types.

£35

Glycolic Facial / Peels / Blue Peel

Glycolic Acid peels are medically endorsed as a viable alternative to more invasive chemical peels. Glycolic acid will gently encourage dead thickened layers to gently lift away. The skin will appear smoother, more translucent, softer and firmer. Glycolic acid peels are used to treat sun damage, fine lines, wrinkles, enlarged follicles, coarse texture, pigmentation and acne.

From £40

Obaji Blue Peel £100

Derma Roller Therapy

This treatment provides advanced micro-medical skin-needling, a procedure that stimulates the skin to regenerate and repair itself naturally and safely, creating smoother, brighter, healthier, younger-looking skin. It stimulates natural skin regeneration and scar repair, and can treat acne scars, aged and sun damaged skin, facial and décolleté lines and wrinkles and stretch marks.

CACI - The non-surgical face lift

As we grow older our facial muscles naturally start to loose tone and elasticity. Genetics, lifestyle, weight fluctuation and environmental factors can all influence the rate and degree to which our muscles will lose their tone. As we all know first impressions count and a sagging face can make you look tired, miserable and older than your years.

Results are visible after the very first treatment but a course of twelve treatments is generally recommended. After a course of CACI facial toning treatments facial contours will look lifted and toned. A monthly top up treatment is recommended to maintain results.

CACI Facial (whole face)	£50
A Course of 12 Sessions	£550
CACI Jowl (lower face)	£25

He is also the UK trainer for the Liposelection by Vaser procedure. [Initial consultation £25](#)

Skin fillers

Dermal Skin fillers are used to revolumise the skin. We do a variety of skin fillers and the most appropriate one will be selected for you upon consultation with the doctor. Dermal fillers can be used for the following;

Lines from the nose to mouth (Nasolabial Fold)

Lines from the mouth to the chin (Melomental Fold)

Lines above the upper lip

Frown lines (best combined with muscle relaxing injections)

In the lips for volume and definition

To restore volume to cheekbones or cheeks

In some situations, under the eyes

To fill out the back of the hands and make veins look less prominent

All fillers are FDA approved

[From £300](#)

Skin Boosters

Restylane Skin Boosters are used to nourish the skin. This means increasing hydration levels within the skin to deliver lasting moisturisation and improvement to the skin surface. This treatment involves Hyalauronic Acid being micro-injected into the skin resulting in the skins firmness, elasticity and radiance.
